Of the [over 300 anti-choice groups in Canada](#), we have selected the “top 25” in three broad categories: political anti-choice, crisis pregnancy centre, and right-wing multi-issue. Fifteen of the groups are charities.

The groups are listed in **alphabetical order** in each category – **not ranked** – and meet one or more of the following inclusion criteria. The first criterion is objective; the others are based on ARCC’s judgment:

1. Charities with annual revenues of about \$750,000 or more according to latest-filed CRA tax return (over [68% of anti-choice groups](#) have charitable tax status)
2. Large – has many chapters, or many paid staff, or large membership (as estimated by ARCC, accurate counts usually not available)
3. Externally influential – potential ability to influence politics, law, society, or media.
4. Internally influential – supports, defends, or organizes other anti-choice groups; or acts as umbrella group.
